

WANGLE

A Scandinavian Animation Studio with a Global Network

Based in **Copenhagen and Stockholm**, Wangle is a team of producers, artists, and specialty problem-solvers. We don't just "make content", we tell stories with brands that people can really feel through their screens.

AN EYE FOR PERFORMANCE

Industry Standard Stack: Our cloud-based production pipeline is based on Autodesk Flow, Houdini, Maya, Cinema 4D, Nuke and DaVinci Resolve Fusion, and we are pioneers in using **Unreal Engine** to bring live-render speed to high-end commercial projects.

Asset Scalability: Modular assets designed for rapid localisation and customisation.

Iterative Optimisation: High-volume versioning to test and optimise for specific conversion drivers.

Format Versatility: Master assets optimised for Streaming, Programmatic, and Social-first aspect ratios.

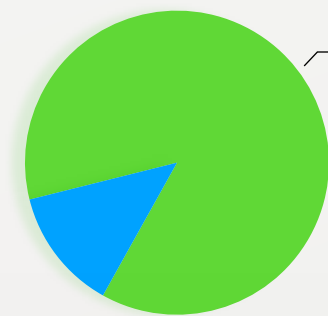

DIGITAL COMMUNICATIONS MANAGER - BRIO
-
"The **world setting** feels really in line with our **ambition** to create a **magical** forest full of awe and wonder. A place for **adventure** and **fun** that's intriguing but somehow a little familiar too.

SVP & CREATIVE DIRECTOR - Pandora
-
"Wangle has our true appreciation for their contribution in **creating, understanding,** and **delivering.** They have been a great partner

CONTACT: hello@wanglemedia.com <https://www.wangle.studio>

CLIENT - BRIO

87 % Audience Retention:

Outperforming the 40% industry average through "Slow TV" utility content.

Launching the "Flora" Universe: Innovation Meets Heritage

The Challenge: Introducing a new modular toy line while staying true to a 140-year-old heritage.

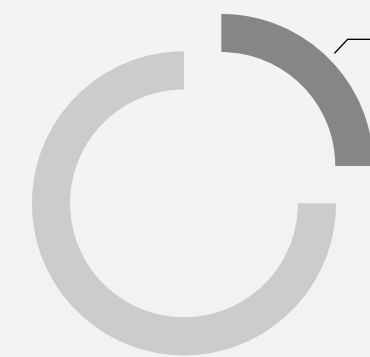

The Tech: Unreal Engine for faster production turnaround, embracing the "Phygital" approach emphasising interaction mechanics and tactile material quality.

The Results: Winner: "Toy of the Year" (Årets Leksak 2025, Sweden) — Preschool Category.

Scale: Currently in production on a **second series of episodes** to expand the Flora global footprint.

CLIENT - PANDORA

25 % Reduction in Returns

With digital tactile clarity matching physical reality.

By shifting Pandora from a fragmented, photo-reliant model to a centralised, 3D-driven Content Supply Chain, Wangle provided the visual infrastructure for the Phoenix Strategy

The Challenge: Legacy content production tools could not scale fast enough to rebrand Pandora as a "full jewelry house".

The Solution: Built a "single source of truth" 3D asset library for scalable global awareness.

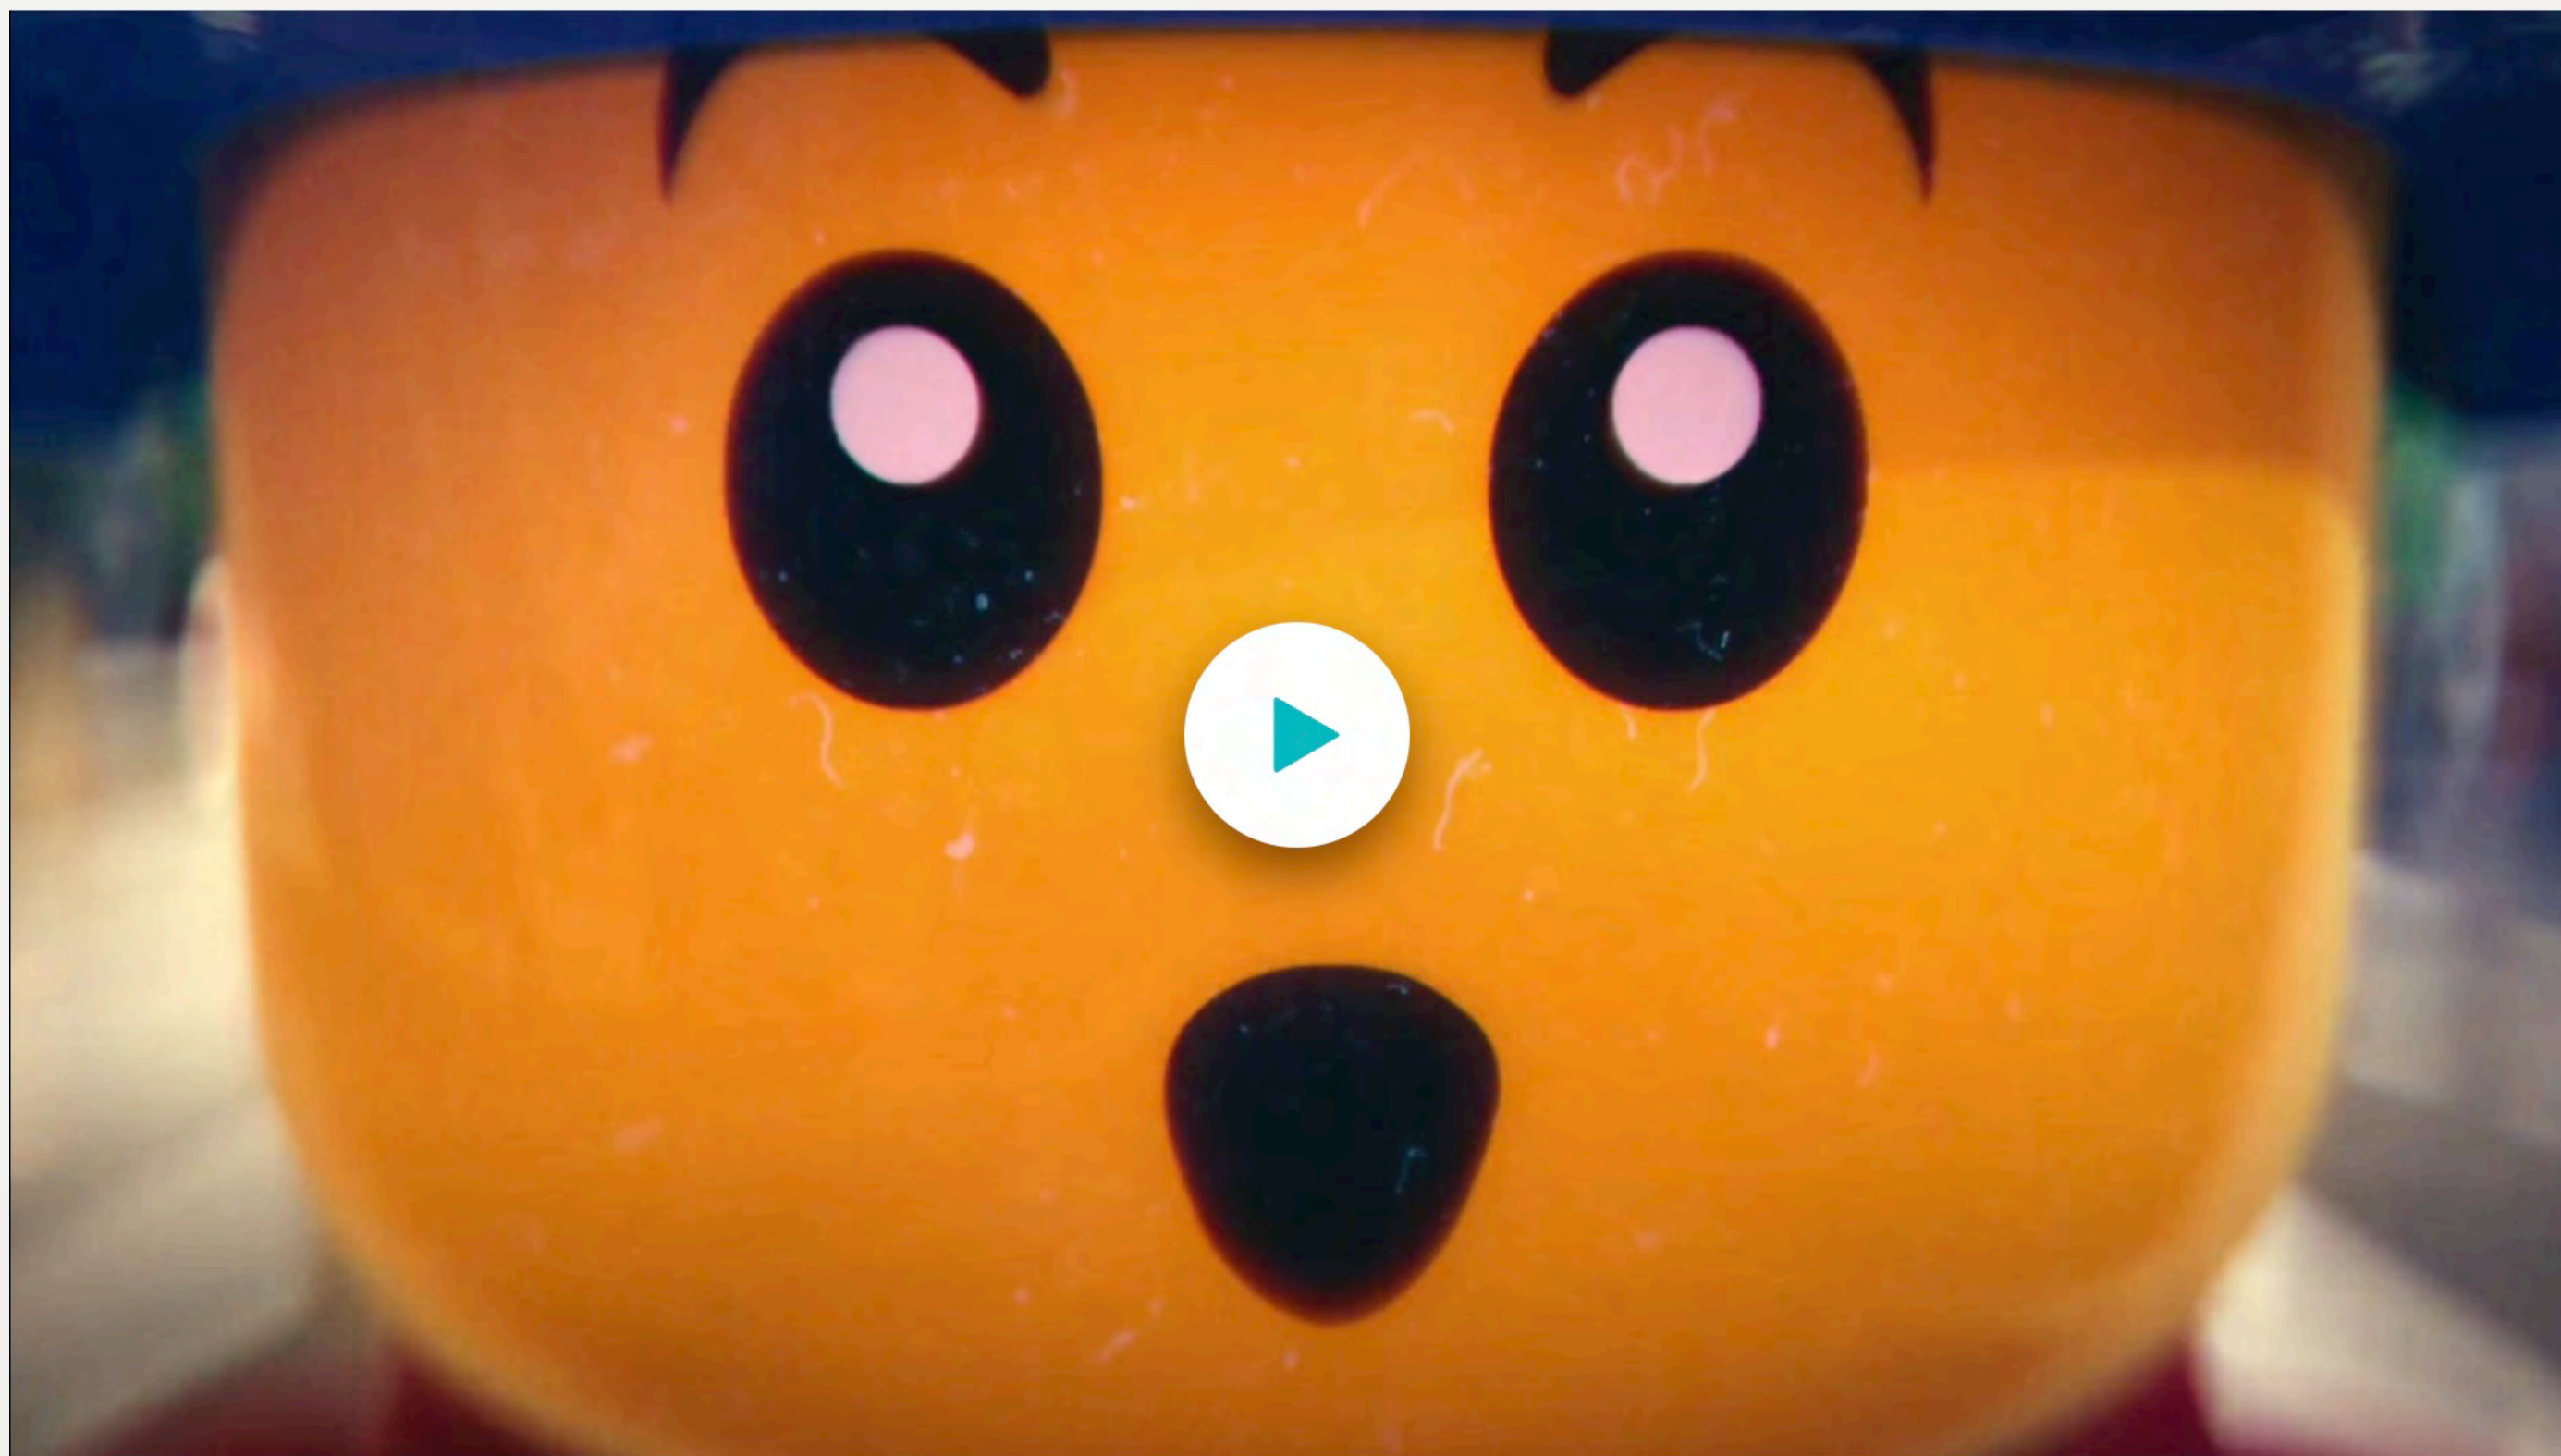

The Results: 22% Segment Growth in rings and earrings via successful visual repositioning.

Top 3 Global Brand: Unified premium identity among the world's most valuable jewelry brands.
